

QUALITY BULLETIN

Subject: Supplier Quality Flow-down Requirements Revision

SSQR-01 superseded by Procure-2-011

This Quality Bulletin has been prepared on the basis of the notification "Supplier Quality Alert 316" to inform our Suppliers about the proper use of the document "Procure-2-011".

Supplier Quality Communication apply to PZL Mielec procurements under the Sikorsky program.

Dear Suppliers:

Sikorsky Supplier Quality merged the SSQR-01 Supplier Quality System Requirements with the RMS Procure-2-011 Supplier Quality Requirements document.

The merged document, Procure-2-011, outlines the Supplier Quality Requirements and will be flowed-down on all new purchase orders.

Combining the requirement into a single document will reduce procurement risk and make it easier for suppliers to find and understand requirements by:

- Eliminating conflicting and duplicate requirements
- Reducing the number of documents to review

NOTE: The Procure-2-011 clearly identifies requirements and instructions that apply only to either Sikorsky or non-Sikorsky procurements.

Please reference Page 2 of this notification for a summary of the updates.

Any questions on this communication may be directed to SQA.dl-RMS_PZL@exch.ems.lmco.com

Thank you in advance for your attention and cooperation.

SQA PZL Mielec

SUMMARY OF CHANGES

- Common requirements wording for all of RMS (Rotary Mission Systems (RMS))
- Sikorsky-Specific requirements clearly identified
- Supplier Type Identification and Applicability Tables Included
- Key section remain:
 - Appendix A: Designated Quality Representative Procedure (DQR)
