RECORD OF REVISIONS

Revision	Date	Compiled by:	Description of changes	Affected pages
1	2020.06.23	A. Król	Original issue	All
2	2020.08.28	A. Król	Introduced general information (Introduction)	3
3	2020.10.15	A. Król	Implemented SUPPLEMENT to the standard OST1.10471-72, implemented standards OST1.31564-80 and OST1.31565-80	7; 19
4	2021.02.15	A. Król	Implemented SUPPLEMENT to the standard GOST20189-74, Implemented SUPPLEMENT - 1 to the standard OST1.11421-74.	4; 13
5	2021.03.04	A. Król	Implemented SUPPLEMENT to the standard OST1.10940-73, Implemented SUPPLEMENT to the standard OST1.11966-73	9; 10
6	2021.03.15	Z. Stypa	Changed format of the entire document – added INTRODUCTION, divided into sections on OST, GOST and US standards; added section on U.S. standards	Entire document
7	2021.05.10	Z. Stypa	Chapter 2 updated with U.S. standards	22 - 29
8	2021.06.20	Z. Stypa A. Król	Changed format of the entire document	Entire document
9	2023.03.21	A. król	Updating the document (overview)	Entire document
10	2024.03.18	A. król	Updating the document (overview)	Entire document

INTRODUCTION

This document specifies the scope of acceptable revision levels of the standards for the M28 standard parts.

This document is intended to be referenced in purchase orders for the M28 standard parts (all versions including spare parts) in order to identify the applicable acceptable standard revisions for the standard parts.

It is recommended that standard parts supplied by suppliers are of the latest acceptable standard revision.

Additionally, in the column "Remarks" there are standards for which "**SUPPLEMENTS to the standards**" applicable at Polskie Zakłady Lotnicze sp. z o.o. have been developed to introduce necessary deviations while maintaining full traceability of the parts (the prefix "**PZL**" in the designation of the standard part). The mentioned "SUPPLEMENTS" are supplementing the current revision of the standard.

This List is applicable to the manufacture of standard parts and assemblies at Polskie Zakłady Lotnicze sp. z o.o. as well as at sub-suppliers approved by PZL.

Any issues concerning compliance of standard parts with the requirements of the design documentation should be submitted by suppliers in writing to the M28 Design Office for clarification and/or approval.

The design documentation and/or technical requirements of the M28 aircraft may contain standard parts for which substitutes have been approved. A list of approved substitutes for M28 standard parts is contained in the W.Z.C.Z. document and/or M28 General Specification.

The list of the current revision levels of standards for the M28 standard parts is divided into three sections:

- Section 1 - List of current revisions of the standards of the former USSR (standards: OST, GOST, A, S, AN and others);
- Section 2 - List of current revisions of national standards (PN, BN, ZN and others)
- Section 3 – List of current revisions of other standards (U.S. standards – MS, NAS, MIL, AN, other foreign standards)

Section 1. List of current revisions of standards of the former USSR (standards: OST, GOST, A, S, AN and others).

This list specifies the acceptable revision level of the standards of the former USSR for the M28 standard parts.

For the OST and GOST standards, the list specifies the „frozen” level of revision according to the status of revisions of the standards held by PZL which is defined by the year of issue at the end of the standard designation (e.g. GOST10336-80) and the latest revision introduced to the standard by PZL standardization team.

For other groups of standards (standards: „A”, „S”, „AN” and others) the level of revision is in accordance with the status of the revisions held by PZL in the STANDARDS DATABASE together with the modifications introduced by PZL standardization team.

Section 2. List of current revisions of national standards (PN, BN, ZN and others)

This section specifies the acceptable level of revisions of the standards for the M28 standard parts manufactured according to national standards (standards: PN, BN, ZN and others).

The level of revisions of PN, BN (and a part of ZN standards) is indicated by the year of issue and implemented amendments/ revisions.

Section 3. List of current revisions of other standards (U.S. standards – MS, NAS, MIL, AN and other standards).

This list contains the acceptable revision level of current U.S. standards referenced in the design documentation and/or additional requirements as well as other standards (e.g. DIN) for use in the M28 aircraft.

In order to unify the acceptable revisions of standards for the M28 standard parts and other Sikorsky Aircraft products for parts common to both products, this section of this document is in accordance with the current revision of SS 9998 "Standard Parts Index".
